

# D.A.V INTERNATIONAL SCHOOL AHMEDABAD

## CIRCULAR GRADE- V to X

AO/PR/Cir/11/11  
25.11.14

Dear Parents,  
Greetings

“ The best way to predict the future is to invent it” - Allan Kay.

To ignite scientific temper and inculcate experimental learning, D.A.V has organised a **Science and Math exhibition** with projects created by the students of different classes from 5<sup>th</sup> to 10<sup>th</sup> .

The exhibition shall be mainly aimed at motivating the students of all classes and it shall be held from **10.30 am till 2.00 pm on this Saturday 29<sup>th</sup> November, 2014.**

To have a visual feast of syllabus and concept based exhibits, we invite your esteemed presence to witness our budding Aryabhatta's and C.V Raman's in their endeavor to discover the wonders of science **between 10.30am to 2.00pm** and thus encourage and motivate the children for their efforts.

The exhibition is only a modest effort from the children, helped and guided by their teachers.

A few guidelines may be followed:

- ❖ Do not carry with you bags or any other belongings, walk freely around.
- ❖ Do not rush into a room, where already there are enough people observing and appreciating the projects.
- ❖ In case you are coming in your own vehicle, park the vehicle in order and while moving away please take care to avoid traffic commotion.

**Students incharge of the project are guided by their teachers as regards their reporting time and other related matter.**

With Best Wishes

Geeta Singh  
Principal
