HOLIDAY HOMEWORK

SESSION (2020-21)

CLASS X

Nature is in crisis, threatened by biodiversity and habitat loss, global heating and toxic pollution. Failure to act is failing humanity. Addressing the current coronavirus (COVID-19) pandemic and protecting ourselves against future global threats requires sound management of hazardous medical and chemical waste; strong and global stewardship of nature and biodiversity; and a clear commitment to “building back better”, creating green jobs and facilitating the transition to carbon neutral economies. Humanity depends on action now for a resilient and sustainable future

Being positive and hopeful is a powerful force and probably the most important factor when it comes to overcoming life’s biggest challenges. Without it, everything is lost. While it’s hard to be optimistic during difficult times, think of it as your only weapon — use it to fight and you’ll eventually find your way out.

**“Formal education will make us living;
Self-education will make us a fortune”**

-JIM ROHN

Hope this thoughtfully designed homework will help you learn & grow better and earn you all a fruitful vacation time.

ENGLISH

NOTE: Attempt any one of the two

1. Kofi Annan (former Secretary-General of United Nations) said, “Gender equality is more than a goal in itself. It is a precondition for meeting the challenge of reducing poverty, promoting sustainable development and building good governance”.

Keeping in view of this spirit write a self-composed poetry on the importance of gender equality and envisioning a gender equal society where everyone can thrive according to their capabilities.

2. The biggest challenge in Consumer Right is educating the consumer. If people know their rights then they will be protected, if not they will be exploited.

- In reference to the given statement compose an acrostic poem on consumer awareness and rights using flash cards and create a collage of the same.
- Create one line of poem in each flash card
- Take your photograph holding each card
- Now create a collage

SOCIAL SCIENCE

Every student has to undertake **any one** project on the following topics: **(Do any one of the A ,B and C)**

A. CONSUMER AWARENESS

Sellers try to shift the responsibility of product/service on the buyer. They plea that the buyer should be **aware** when he buys the goods. It is the responsibility of the buyer to check the goods while purchasing them. However there are strong and clear laws in India to defend consumer rights, the actual plight of consumers of India can be declared as completely dismal. Out of the various laws that have been enforced to protect the consumer rights in India, the most important is the **Consumer Protection Act, 1986**. The need for consumer protection and satisfaction has been widely accepted all over the world.

B. SOCIAL ISSUES

A **social issue** is a problem that influences many citizens within a society. It is a common problem in present-day society and one that many people strive to solve. It is often the consequence of factors extending beyond an individual's control. Social issues are the source of a conflicting opinion on the grounds of what is perceived as morally correct or incorrect **personal life** or interpersonal social life decisions.

Some Social Issue Tips You Can Include in Your Project are: (cover any two topics)

1. Religion. Different religious settings and places of worship have bonds that bring their followers together lead to Communalism.
2. Gender identity.
3. The government and social life
4. War
5. Drugs and alcohol abuse. ...
6. Social media and bullying
7. Cyber crime

C. SUSTAINABLE DEVELOPMENT

Sustainable development is the **organizing principle** for meeting **human development** goals while simultaneously **sustaining** the ability of natural systems to provide the natural resources and **ecosystem services** upon which the economy and society depend. The desired result is a state of society where living conditions and resources are used to continue to meet human needs without undermining the integrity and stability of the natural system.

Sustainable development can be defined as development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

Sustainable Development Topics You Can Include in Your Project. State the measures adopted by the government to handle the below mentioned problems: (Sustainable development measures with the relevant example of states)

- The environment also sustains life by providing **Bio diversity**. The genetic variations created by the pressures exerted by the environment on various life forms allows those life forms to adapt, evolve and produce genetic variations which can survive in harsh environments
- A pollutant is a waste material or substance which causes **An undesirable change in a natural resource or ecosystem**. Smoke, dust and poisonous gases in the atmosphere and industrial effluents and sewage from cities in water are some common examples of pollutants.
