I am Kusalaya Mishra, a student of DAV Public School, CSPUR. It has been 1 year since I would like to credit my success in this institution, which has been like my second home. I got selected into the 'A section' from class 12 and there has been no forgetting back since then. The competitive atmosphere, independent guidance of our teachers has helped me improve to my best.

I would like to give my special thanks to our beloved principal, Dr. K.C. Dasgupta, whose words of study were like the beacon of inspiration. He has special care to solve the problems of every student & to help them overcome their weaknesses. Our teachers always worked in both their technical skills and moral support. They were always available for us to all our doubts of both the theory classes, computer lab and their detailed analysis which made us confident to accomplish our work apart of studying them. They teaching style and the material provided helped in absorption of concepts and apply them while solving questions.

It is really thank this school, our principal, my dear teachers who have helped me achieve my dreams.

THANK YOU ALL!!!
