

DAVAV

ECO CLUB

FOP:-FRIENDS OF PLANET

In every walk with nature one receives far more than he seeks.

John Muir

VANASTHALI

2018-2019

PAWPAW

THE PAPAYA, PAW PAW IS A PLANT CARICA PAPAYA ARE DIOECIOUS . IT IS A HERMAPHRODITE HAVING MULTIPLE SOURCES OF POLLINATION (e.g.:- BEES, HAWKMOTHS AND SOME CULTIVARS ARE SELF POLLINATING

Trees are the Earth's endless effort to speak to listening heaven.
Rabindranath Tagore

PRINCIPAL'S DESK

“Look at the trees, look at the birds, look at the clouds, look at the stars and if you have eyes you will be able to see that the whole existence is joyful. Everything is simply happy. Trees are happy for no reason; they are not going to become prime ministers or presidents and they are not going to become rich and they will never have any bank balance. Look at the flowers – for no reason. It is simply unbelievable how happy flowers are.”
Osho

"Let's stand together and make this planet Heaven that even God would wonder whether 'He' created these creations or these creations are recreating 'Me' on the earth".

Everyone can identify with a fragrant garden, with beauty of sunset, with the quite of nature, with the warm and cozy cottage.

Thomas Kincaide

Tree Plantation is the process of transplanting tree seedlings, generally for forestry, land reclamation, or landscaping purpose. Because tree remove carbon dioxide from air as they grow, tree plantation can be used as geoengineering technique to remove CO₂ from atmosphere.

. "The goal is to make your heartbeat match the beat of the universe, to match your nature with nature."

Joseph Campbell

TREE PLANTATION

The best thing one can do when it's raining is to let it rain.

-Henry Wadsworth Longfellow

TERRARIUM

A terrarium is usually a sealable glass container containing soil and plants, can be opened for maintenance to access the plant inside. Terraria are often kept as decorative or ornamental items.

"We do not see nature with our eyes, but with our understandings and our hearts."

-William Hazlett

Composting

Class 8 as an outdoor activity did Composting in the earthen pot, backyard of the school .Student Collect kitchen waste and continue to add layers till the bin was full. It was maintained for 2 months and then it was harvested .

A Manure made from composting

PLANT A TREE

VAN MAHOTSAV

Planting trees add to the health and wellness of the world. Keeping this in mind 'Van Mahotsav- the festival of plants' was celebrated in the months of July. Great efforts were shown by the whole of the student community to green the school.

NATURE WALK

To stimulate a child's appreciation for the natural world, Students of junior wing of our school enthusiastically participated in the nature walk to the nearby ' Ashoka Garden'

SAY NO TO CRACKERS

SAY NO TO CRACKERS

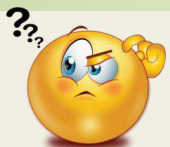

Green is the prime color of the world, and that from which it's loveliness arises.

Pedro Calderon de la Barca

Pollution is one of the primary causes of diseases and deaths in the world has slowly; poisoned the environment as well. The health of the environment is now dependent upon us. We cannot afford to ignore the warning science and continue with anti-environmental activities.

*"The goal is to make your heartbeat match the beat of the universe, to match your nature with nature."
Joseph Campbell*

THINGS TO PONDER

Are humans getting better through the generations?

Is life better now than in the past?

Is your perception of your reality akin to other people's experience of reality?

What is worse: Failing or not even trying in the first place?

Is there something greater than Humans?

What small changes could Drastically improve people lives?

Is it more important to do things Right or to do right things?

If your resources were unlimited, would you live a different life?

If you could live forever, what would you do?
